1. Fading Away wiki

This is the place where we're storing our work ideas. This main page serves as a topmost index.
The wiki is pretty rudimentary, we'll make it better as it grows.
Also, notice that the wiki software is shared with Falcon main site, so it may get independently updated and improved without the direct intervention of the staff of this project.
In the meanwhile, be sure to Read who we are and what we're doing.
